Network, Cabling and Security

Assess office connectivity through a documented installation and acceptance plan.

Discovery

Data points, cabinets, backbone, Wi-Fi coverage requirements, and internet and telephony dependencies.

Design

Port and labelling plan, capacity, access groups and appropriate network-segmentation requirements.

Deliverables

Implemented topology, port list, measurement reports, test scenarios, acceptance and outstanding work.

Operations

Monitoring, configuration changes and maintenance responsibilities are defined separately from installation.

Costs

Cable lengths, equipment, labour, testing, site conditions and the working window are compared within the scope.

This document summarises the scope for a service discussion. It does not establish a fixed price, certification, numerical SLA or outcome guarantee. Binding scope is defined in the quotation and contract.
